

## Duplicate or Replacements

### Why did I receive more than one ballot?

You may have received two mail ballot envelopes from Moffat County if you have updated your voter registration or requested a replacement ballot in the time period since ballots were first printed and mailed. In this situation, you may vote and return *only one* ballot. It does not matter which of the ballots you return, as our system will only process and give credit for one. An elector may only vote once in any election.

You may also have received two mail ballot envelopes if you own more than one property in Moffat County. By law, property owners are eligible to vote in Special District elections (such as fire, water or metro districts) for every property owned.

If you believe you received a duplicate ballot for another reason, please contact our Elections Division at 970-824-9120.
